

## **Figures for EAU Report 99/43**

Note: The original hard and soft copies of the artwork for these diagrams cannot be found. They have been reproduced from photocopy reductions, hence the poor quality. The original Figure 3, a rough sketch of a constellation diagram, has not been included (see text).

HL 2 May 2008

Figure 1. Location of the sites. ANN - Annetwell Street; CST - Castle Street; Lanes 1 - area including Old Grapes Lane and Lewthwaite's Lane; Lanes 2 - area including Keay's Lane and Law's Lane. Based on McCarthy et al. (1982, fig. 1).

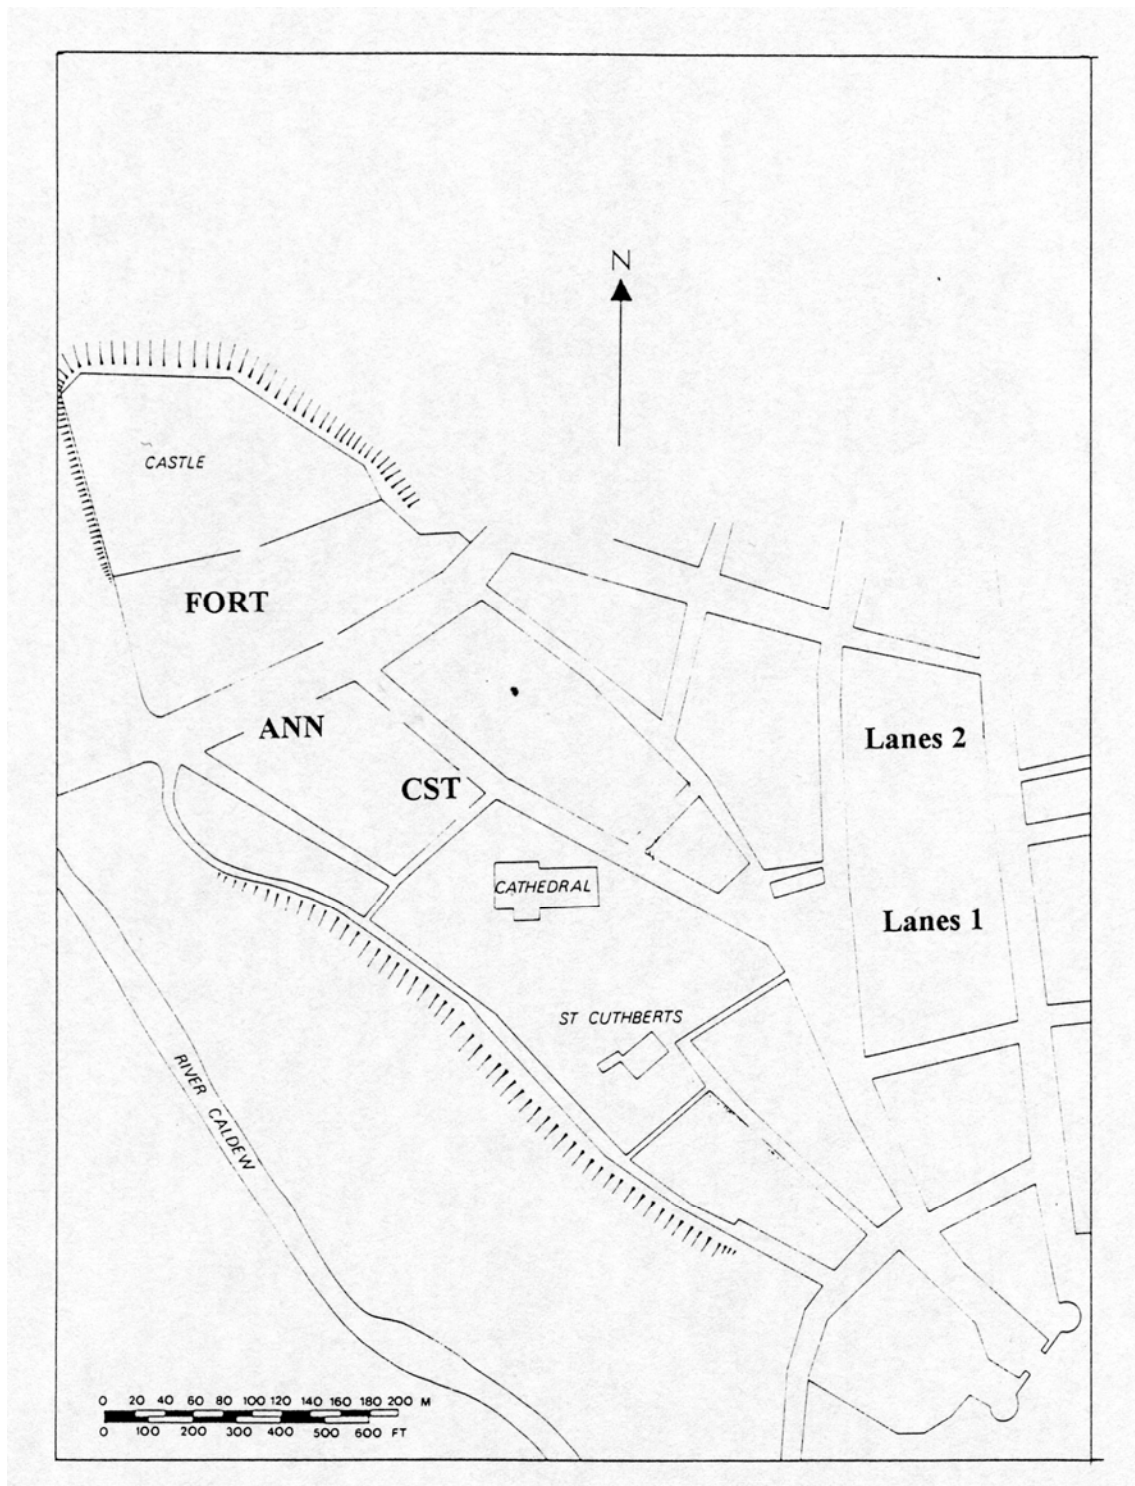

Figure 2 (this and following pages). Bar graphs showing percentages of main ecological categories at the four sites in Carlisle. The values are calculated after the removal of grain pests (G) and uncoded taxa. Note that the vertical axes do not start at zero.
