

Bubbles Planning Sheet

<p>We will define the 'best bubbles' as:</p> <div data-bbox="472 607 735 869" style="border: 1px solid black; background-color: #ffffcc; height: 117px; margin: 10px 0;"></div>	<p>Our first ratio of ingredients will be:</p> <div data-bbox="1114 607 1377 869" style="border: 1px solid black; background-color: #ffffcc; height: 117px; margin: 10px 0;"></div>
<p>We will measure out the ingredients using:</p> <div data-bbox="472 1019 735 1281" style="border: 1px solid black; background-color: #ffffcc; height: 117px; margin: 10px 0;"></div>	<p>We will keep these variables the same:</p> <div data-bbox="1114 1019 1377 1281" style="border: 1px solid black; background-color: #ffffcc; height: 117px; margin: 10px 0;"></div>
<p>We will observe/measure our bubbles by:</p> <div data-bbox="472 1433 735 1695" style="border: 1px solid black; background-color: #ffffcc; height: 117px; margin: 10px 0;"></div>	<p>We will keep a record of our results by:</p> <div data-bbox="1114 1433 1377 1695" style="border: 1px solid black; background-color: #ffffcc; height: 117px; margin: 10px 0;"></div>
<p>We will test each recipe:</p> <p style="text-align: right;">_____ times</p> <div data-bbox="925 1747 1308 2105" style="text-align: right;"></div>
