Getting to the University

By Rail

York is on the main East Coast Line from London King's Cross to Edinburgh. Fast trains leave from both north and south at frequent intervals. There is also a direct service across the Pennines between York, Leeds and Manchester Airport. The University is two miles from the railway station and you will need to get a bus or taxi onto campus.

Public transport

Visitors to Heslington West should board the Number 4 FTR bus at the Railway Station. The Number 4 travels to Heslington Hall via University Road approx every 10 minutes. The scheduled journey time is 20 minutes. Visitors to Heslington East should board the number 44 Unibus at the railway station, which travels to Heslington East via University Road.

By Taxi

A journey by taxi from the railway station to Heslington East will take approximately 20-25 minutes. There is a taxi rank just outside the station.

By Car or motorcycle

The easiest route to the University is to take the outer ring road (A64 on the south and east sides of the city, A1237 around the north and west) to the junction with the Hull/Bridlington roads (A1079/A166). Turn off at the exit marked University and follow the signs past Grimston Bar and down Field Lane to University Road. This route avoids the City centre and known traffic blackspots.

Parking is extremely limited on Heslington East. however, visitors can park in the pay and display car parks on Heslington West and use the free shuttle service between the two sites, UB1 (leaves from Car Park South), Unibus (from opposite Heslington Hall).

By Bike

The University is well served with cycle paths and is currently improving cycle access and storage facilities. Cycle racks are available in most parts of campus.
