

UNIVERSITY
of York

The Department of Health Sciences

Welcome

Dear Student Rep

On behalf of the Board of Studies, I would like to extend a warm welcome to you in your new role as Student Representative. Our student reps are valuable members of the Board of Studies and have an active role in contributing to the enhancement of the student experience here in the Department of Health Sciences.

As a student representative for your programme, you are in a key position to represent your cohort and ensure the student voice is heard. You can make a difference. I would encourage you to read the induction information and familiarise yourself with the Board of Studies governance structure. The information included will also inform you of other meetings you will be invited to attend in your role as student rep.

I look forward to meeting you and working with you over the coming academic year.

Best wishes

A handwritten signature in black ink that reads "Anita Savage Grainge".

Anita Savage Grainge
Chair of Board of Studies
