

ARCHITECTURAL PLANS AND PHOTOGRAPHS OF NOTABLE BUILDINGS

This is a collection of plans, drawings and photographs from various architectural journals. The vast majority come from the following journals:

The Building News

The Builder

The Builders' Journal and Architectural Record

The Architect

The date range being 1870s - 1920s

This list is ordered alphabetically by place name. Within each letter places in Great Britain are listed first, followed by the rest of the world. An indication of country or geographical area has been given, but no attempt has been made to trace changes in political boundaries and designations during or since the period of journals' publication.

Please note that the original journals from which these pictures were collected are not held in the collections of the Borthwick Institute or the York University Library.

It is envisaged that this collection will be of interest to those trying to source illustrations. Please talk to a member of staff if you have particular queries concerning picture research and permissions to publish.

A

Great Britain

Aberdeen, city architecture including:
