

Quick card reporting for Teaching staff

There are three reports available for all Check-In staff users, with 'Sessions' as the main dashboard. The 'Weekly' and 'By activity' reports may be useful and will only display data based on your own taught events, if you have no teaching in the period displayed then these will show blank.

1. Sessions

Sessions is a dashboard view of all events for an individual student. The system doesn't know which group of students an academic supervises, so you will need to search for each student manually, but this report is helpful to run before meeting with your students or to check their progress.

To generate this report, click 'Change' and enter a date range. Using the date range picker requires a user to hover over the dates before selecting:

The screenshot shows the 'Attendance by session' report interface. At the top, there is a navigation bar with the University of York logo and the text 'Check-In staff'. Below this, the report title 'Attendance by session' is displayed. The main area contains a date range picker with 'From' set to 30/10/2023 and 'Until' set to 28/11/2023. A calendar view is open, showing the dates from October 2023 to November 2023. Below the date picker, there are input fields for 'Activities' and 'Students'. At the bottom, there is a table with the following data:

Total Marks	0		0	
Present	0	0.0%	0	0.0%
Explained Absence	0	0.0%	0	0.0%
Unexplained Absence	0	0.0%	0	0.0%
Other	0		0	

When searching for a student, it is best to use their IT username (eg ab123) or student number, but a search by name is also possible. The report will only generate if the student has been searched for and selected correctly by appearing in a grey bubble:

Quick card reporting for Teaching staff

From: 18/11/2023

Until: 18/12/2023

Activities: Search for activities

Students: Studentone, Dummy (ds526) (100000735) (Person) X

Change Cancel

Note: Once you click 'Change' it takes a few seconds for the report to load and will sometimes appear as if nothing is working. You will instead see the refresh circle spinning in the browser tab. Do not click away at this point as the report is loading. Once loaded you can scroll down and across to see all the data for a student.

Attendance by session

Overview from Sunday 27 August 2023 until Wednesday 27 September 2023 [Change](#)

Filtered on students: Studentone, Dummy (ds526) (100000735)

	Total Activities		Key Activities	
Total Marks	5		5	
Present	4	100.0%	4	100.0%
Explained Absence	0	0.0%	0	0.0%
Unexplained Absence	0	0.0%	0	0.0%
Other	1		1	

Student	Type	Summary	Present		Missed		19/09	19/09	25/09	26/09	26/09
			Total	Key	Total	Key	11:30 Lecture	12:30 Supervision	16:30 Lecture	09:30 Lecture	16:30 Lecture
Studentone, Dummy (ds526) (100000735)			100.0%	100.0%	0.0%	0.0%	ND	PR	PR	PR	PR

It is possible to use the Sessions report to search for multiple students in an Activity.

Using the Activity names search box will bring up a list of all students and whether they were present or not at a particular event.

This is the report version of the Register List but requires you to know the exact name of the session (copy and paste the activity name from your timetable). It is currently not possible to do a search by module code within this report.

Quick card reporting for Teaching staff

Here's an example report generated using an activity name in the 'Activities' box and leaving the 'Students' search box blank:

Attendance by session

Overview from Sunday 27 August 2023 until Wednesday 27 September 2023 [Change](#)
 Filtered on activities: [\[Activity Name\]](#)

	Total Activities		Key Activities	
Total Marks	147		147	
Present	49	33.3%	49	33.3%
Explained Absence	0	0.0%	0	0.0%
Unexplained Absence	98	66.7%	98	66.7%
Other	0		0	

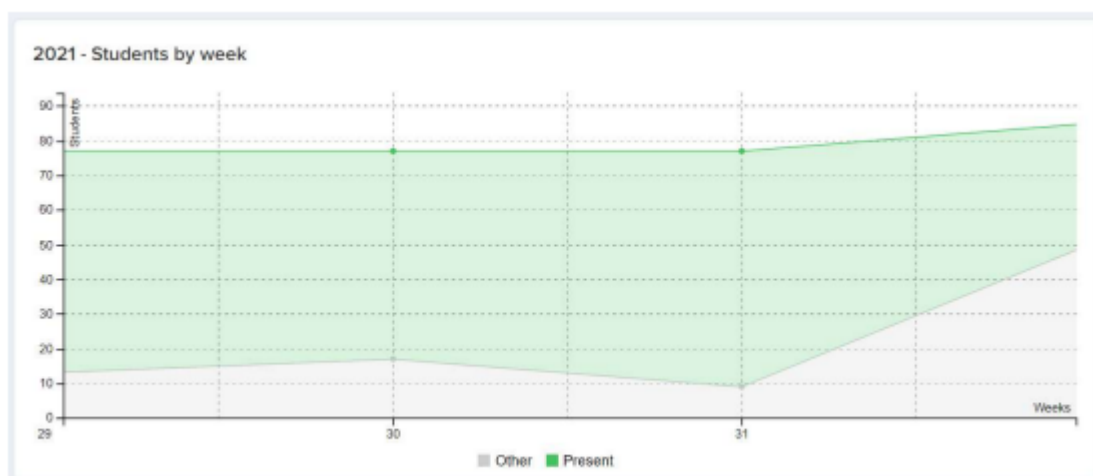

Student	Type	Summary	Present		Missed		20/09 Wed 10:00 Induction Activity
			Total	Key	Total	Key	Key
[Student Name]		<div style="width: 100%; height: 10px; background-color: red;"></div>	0.0%	0.0%	100.0%	0.0%	AB
[Student Name]		<div style="width: 100%; height: 10px; background-color: red;"></div>	0.0%	0.0%	100.0%	0.0%	AB
[Student Name]		<div style="width: 100%; height: 10px; background-color: red;"></div>	0.0%	0.0%	100.0%	0.0%	AB
[Student Name]		<div style="width: 100%; height: 10px; background-color: green;"></div>	100.0%	100.0%	0.0%	0.0%	PR

Key

- **Present:** Event was attended by the student
- **Explained absence:** Absence logged in the system/authorised absence recorded
- **Unexplained absence:** A missed event
- **Other/ND:** This stands for 'Not delivered' and is also called 'Unobserved' in the PSS reports. It's likely the event didn't go ahead or a code wasn't shared with students. This could also be an optional event which Check-In is not used for. This does not affect a student's attendance percentage as can be seen in the above example.

2. Weekly (Students and Percentage by Week)

The 'Weekly' report provides teaching staff with an overview of attendance at taught sessions over a week period. By default the system will display this week's data. If you wish to change to an alternative week in the calendar, select the 'Change' button at the top of the screen.

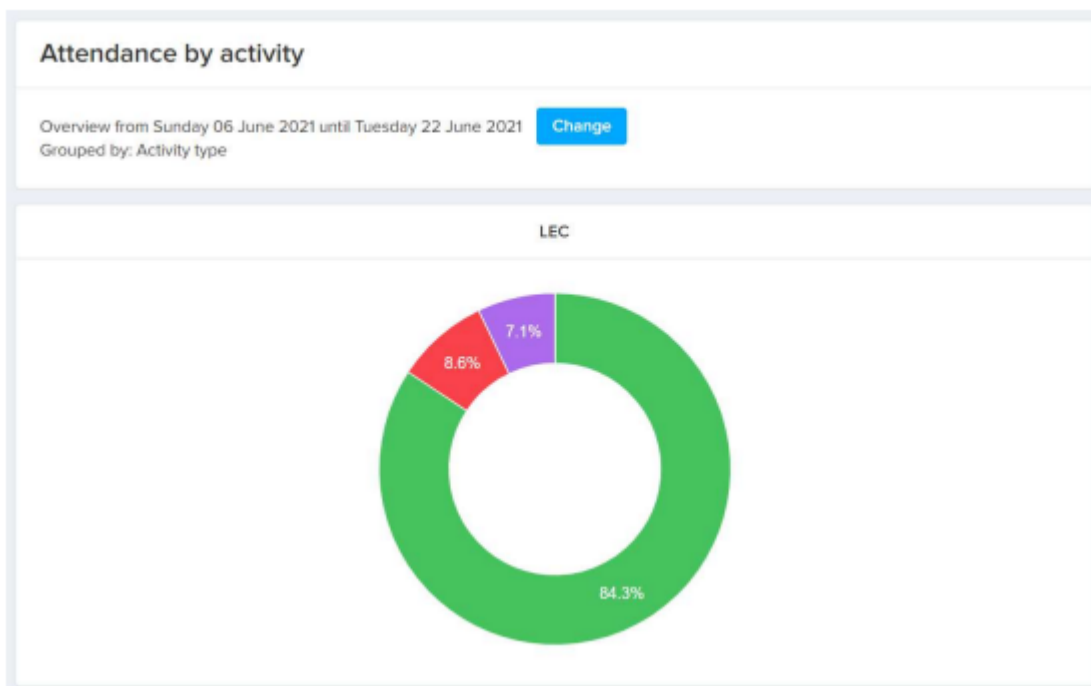

Quick card reporting for Teaching staff

2021 - Percentage by week				
Week	From	Until	Present	Difference
22	2021-05-31	2021-06-06	<div style="width: 78%;"><div style="width: 78%;"></div></div> 78%	0%
23	2021-06-07	2021-06-13	<div style="width: 70%;"><div style="width: 70%;"></div></div> 70%	-8% ▼
24	2021-06-14	2021-06-20	<div style="width: 80%;"><div style="width: 80%;"></div></div> 80%	10% ▲

The 'Difference' column indicates whether student attendance has increased or decreased from the week prior, and by what percentage.

3. By activity

The 'By activity' report visualises a split of student attendance (following the same colours as the Sessions report) at all of your own timetabled teaching activities. The date range can be changed. Here is a sample pie chart of one particular activity:

Change the grouping to 'By activity type' to see an attendance split at different event types (Lectures, Seminars, Tutorials).
