Sources: Housing Finance, Council of Mortgage Lenders and CLG website. Derived from the DoE/BSA 5% sample survey, and from 1993 the wider Survey of Mortgage Lenders.

Notes: The average prices are not adjusted for changes in the mix of properties mortgaged to building societies and other mortgage lenders. There is a discontinuity in the series between 1992 and 1993, due to the switch to the wider Survey of Mortgage Lenders. Data for England is for standard statistical regions.

Notes: The indexes are adjusted for changes in the mix of properties mortgaged to building societies (to 1993) and mortgage lenders (subsequent years). This discontinuity has little impact on the mix adjusted house price for the UK, but there is some variable impact on the regional indexes. Data in England is for standard statistical regions.
