Sources: UK National Accounts, Economic Trends, Office for National Statistics; Financial Statistics Table 3.2c.

Notes: The personal sector includes non-corporate private landlords. See Table 45 for net equity estimates for home-owners.

There is a break in the series of data for the value of private residential dwellings following a change in accounting conventions. The new series (CGRI) runs from 1987. Data from the old series (ALLN) has been used for earlier years, with minor adjustments to avoid a discontinuity with the new series. The deflator for gross domestic capital formation (YBFU) has been re-based to 1980.
