- Note:
1. Figures have been rounded to the percentage point and may not sum precisely. Figures for other years can be found in earlier editions of the *Review*.
 2. Lower response rates in 2020/21 and 2021/22 and changes in the composition of respondents following methodological and operational changes to the Family Resources Survey necessitated by Covid-19 mean statistics for 2020/21 are subject to more uncertainty than previous years and should be treated with caution.
