

Plasma screen instructions

The controls are located at the bottom left hand corner of the screen [1].

To turn it on, use the power button [2].

Pressing the **input** button [3] will cycle through the available inputs.

The **enter** button [4] will alter the picture's aspect ratio, if required.

Volume may be adjusted using the **vol +/-** buttons [5].

If there are any problems with this unit please call the AV department on 3036
