

## **Information**

### **Annual Objectives 2012-13**

1. To renew the University's Information Strategy and provide an implementation plan.
2. To deliver improvements to the student experience of information and associated services, technologies and facilities.
3. To develop processes and services for the management of research data.
4. To improve communication with users and staff through website renewal and improved marketing, promotion and training.
5. To define a catalogue of services, and to embed quality and performance measurement throughout the Directorate.
6. To improve staff satisfaction and culture within the Information Directorate.

Stephen Town  
Director of Information
