

Parish Records of Appleton Roebuck with Acaster Selby

Finding Aid

APPLETON ROEBUCK WITH ACASTER SELBY (New Ainsty D) WR now deanery of Ainsty

The parish of Acaster Selby was formed from Stillingfleet in 1850. Appleton Roebuck was formed in 1868 from the parish of Bolton Percy. In 1875 these two new parishes were joined to form what was initially called Acaster Selby with Appleton Roebuck, although the church at Appleton Roebuck was designated as the parish church. Between 1900 and 1905 the name was changed to Appleton Roebuck with Acaster Selby, but there seems to have been some confusion about the matter as the names were often used interchangeably. The arrangement of the records reflects the complicated history of the parish, since some records (eg. the parish registers) started out life as belonging to one or other of the new parishes, but became joint records after 1875
