

Activity Sheet S11: Roadside plants

Fill in Chris' think bubble with a question or hypothesis about the flower shoots. Think about what you already know.

How can you test your hypothesis at school?

Tick the boxes when you have written or drawn about each part of your test.

What you need.

What you will keep the same.

What you will change.

What you will measure, and how often.

Recording results.

What the test will look like.
