

*Daniel*

*Customer Account  
Manager*  
Johnson Matthey

*What do you do in your job?*

I spend time with customers helping them to solve problems.

For example I might help them to find a product which cuts down on pollution.

I work with a team that invents new products to suit our customers' needs.

*What did you enjoy at school?*

I loved acting in school plays.

I also played the clarinet, oboe and bassoon in the school orchestra.

My favourite subject was science.

*What are your hobbies?*

I enjoy reading.

I am very active, I enjoy riding my bike and climbing mountains.

*What do you need to be good at for your job?*

I need to be able to do lots of things at the same time.

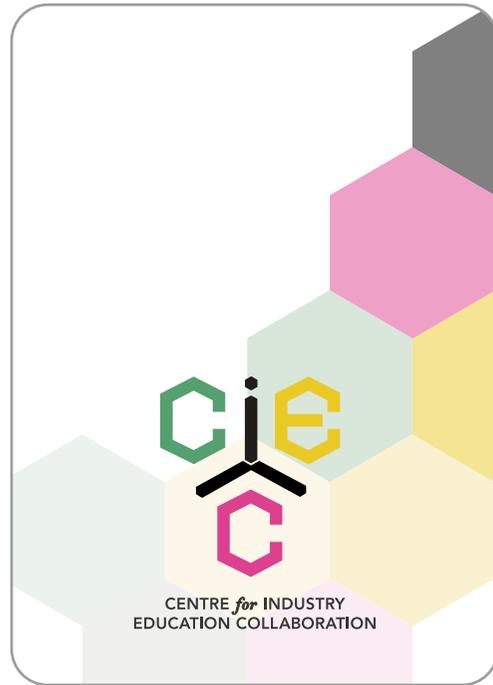

I need to be good at listening to people and understanding what they need and how Johnson Matthey might help them.

*Production  
Manager*  
Johnson Matthey

### *What do you do in your job?*

I work with a team to make sure that we make the right amount of products.

I make sure that everything in the factory is safe.

### *What did you enjoy at school?*

I grew up in America and went to school there.

I always enjoyed science and maths.

### *What are your hobbies?*

I enjoy watching basketball and American football.

I am also very interested in history.

### *What do you need to be good at for your job?*

The maths that I learned at school is very important.

I also need to be good at sharing ideas with other people.

*Yati*

*Business Manager  
for Europe*

Johnson Matthey

### *What do you do in your job?*

I lead a team which helps customers to reduce pollution.

We create products for customers, and spend time explaining to customers (who might not be scientists) how they work.

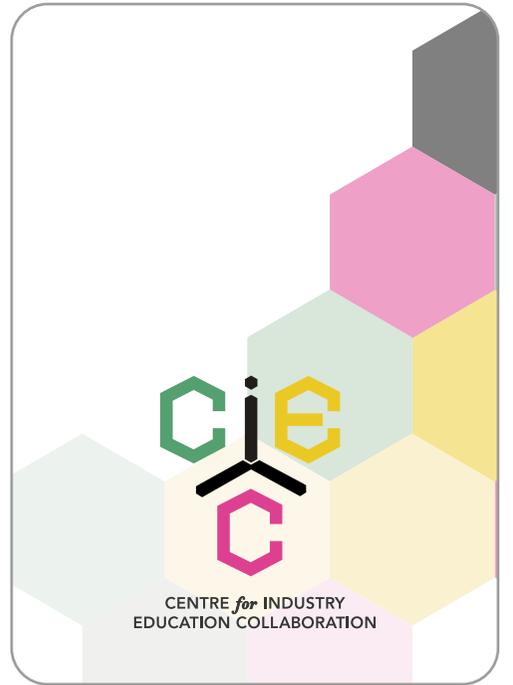

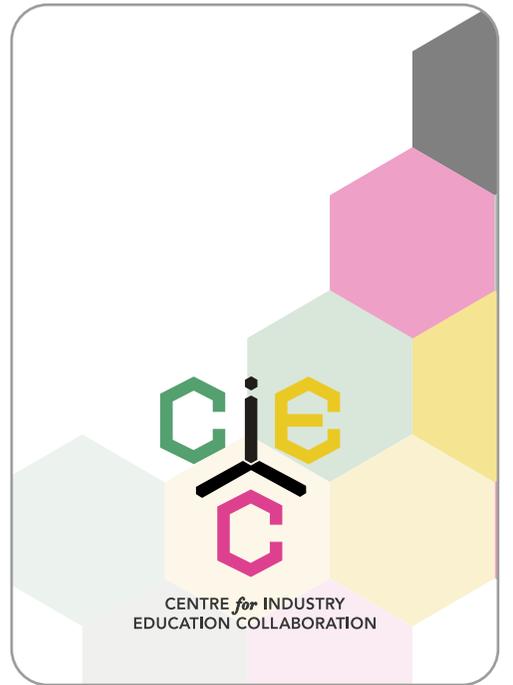

### *What did you enjoy at school?*

I went to school in India.

I enjoyed painting, dancing and crafts.

My favourite subject was science.

I used to love doing science experiments at home with my Dad.

### *What are your hobbies?*

I enjoy regular meditation.  
I also spend a lot of my free time encouraging girls to understand that they can choose science careers.

### *What do you need to be good at for your job?*

I need to have a good understanding of engineering and science.  
I think that it is important that I love what I do and have a positive attitude.

*Aneta*

*Quality Control Lab Technician (Apprentice)*  
Johnson Matthey

### *What do you do in your job?*

I test samples to make sure that products made in the factory are good quality.

### *What did you enjoy at school?*

At school I enjoyed art and music lessons and I played a number of musical instruments.

### *What are your hobbies?*

I like to read non-fiction books.  
I enjoy hiking and art.

### *What do you need to be good at for your job?*

I need to be accurate and careful when testing samples.  
I need to be very organised.  
I need to work well in a team.
