How can we identify the best possible school leaders?

A) RATIONALE FOR THE PROJECT
In this project, you will develop and test improved methods for selecting prospective school leaders. You will work with to develop and test evidence-supported selection methods, such as multiple mini-interviews (MMIs) or new forms of situational judgment tests (SJTs) to identify the most effective school leaders. You will work on developing, validating, and testing new school leader selection tools.

B) REFERENCES THAT SHOULD BE READ (if you do not have access to these, please email me)

C) RESEARCH AIMS / QUESTIONS
Can we improve the way that we select school leaders?
What are the critical attributes of the most effective school leaders?
How do applicants and employers view these new methods?

D) METHODS
The project may involve quantitative and/or qualitative methods. A background in psychology (especially educational, organisational, or cross-cultural) would be beneficial.

E) SKILLS AND OPPORTUNITIES YOU COULD GAIN
You will gain skills in collecting and analysing quantitative and/or qualitative data.
