

Dark Room

What can you see in the dark?

Imagine you go into a cupboard under the stairs and close the door. There are no windows and the door is a very tight fit.

On the shelves are some books, the cat is in her basket looking at you and you can see yourself in the mirror.

What can you see in the dark?

You switch off the light.
After sitting there for a
while, what will you be
able to see?

What can you see in the dark?

- A** After a while, you will be able to see everything, but very dim.
- B** The only thing you will see is the cat's eyes shining.
- C** You will see the mirror shining dimly, but everything else will be dark.
- D** You won't be able to see anything at all, no matter how long you wait.

	I am sure this is right	I think this is right	I think this is wrong	I am sure this is wrong
