Assessment Guidance

**Formative assessment: a) Midpoint interview with your mentor; b) Practice experience reflection**

a) You must arrange an interview with your mentor to review your progress in practice. Any significant concerns about your practice raised at this point, or at any other point during your practice experience, may be written into an action plan. You will need to successfully achieve this action plan by the end of your practice experience in order to pass this module.

b) Following the format outlined in your Electronic Ongoing Assessment Record (EOAR), you are required to discuss with your mentor and write a reflection related to one of the following competencies:

- Co-ordinating, managing and evaluating services.
- Audit to improve the quality of experience and safety of service users, carers and staff.
- Utilise methods of organising care delivery, i.e. primary nursing, team nursing, named nursing, key workers, care programme approach, client allocation, as appropriate to the care setting.

**Summative assessment: Completion of Electronic Ongoing Assessment Record – Practice Experience five**

It is essential that you arrange a final interview with your mentor prior to your last week of practice and complete the eOAR by the assessment deadline. Full details are available in Electronic Ongoing Assessment Record. Your work will be extracted electronically from the eOAR and the results processed and archived. Failure to complete the eOAR without an approved extension will normally result in a first attempt fail.

To successfully complete this element of the assessment:

- You must complete reflective accounts using the templates provided in your Electronic Ongoing Assessment Record; these must be reviewed by your mentor as part of your assessment
- You must complete the Practice Experience Five Electronic Ongoing Assessment Record by the deadline indicated on the Assessment Schedule.
- You must achieve all NMC outcomes and performance criteria. If you are unable to achieve an outcome
through lack of opportunity then this must be clearly documented in your Electronic Ongoing Assessment Record
• You must normally complete a set number of hours during Practice Experience Five. The exact number of hours can be found on your allocation sheet available on the VLE.
• Practice will be assessed as a pass/fail by your practice experience mentor using the outcomes and hours criteria in the eOAR.
• All hours, outcomes and performance criteria must be achieved before progression to the next stage of the Programme
• If you do not successfully achieve the outcomes for Practice Experience Five, or if you have a deficit in hours at the end of your placement, you would normally be offered one opportunity to redeem the failure through a four-week action plan.
• If the statutory practice hours are not achieved by the end of the programme you will be unable to register with the NMC. Individual advice will be given to any student to whom this applies.
