Module Title: Nursing Practice Experience 6
Module Code: HEA00107H
Module Level*: 6
Assessment Type(s): [1] First Aid course [2] Electronic Ongoing Achievement Record

Marking Criteria
Guidelines should be read in conjunction with the marking criteria guidance for the module level* noted above:
http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/markgrid/

Confidentiality
It is a breach of confidentiality to disclose any personal information about a patient, service user, colleague, staff or any other person or place that could in principle enable them to be identified. For further guidance please refer to the departmental policy on Confidentiality at the following link:
www.york.ac.uk/healthsciences/student-intranet/exam-assess/conduct/confidentiality/

Assessment Timing
The deadline for correctly presenting a submission is 4.30pm on the published submission date.
The submission deadline is published on the Programme Assessment Schedule available on the following link:
http://www.york.ac.uk/healthsciences/student-intranet/timetables/assessment-schedules/

Referencing
You must reference your work in accordance with departmental referencing guidelines which you can access via the following link:
http://www.york.ac.uk/integrity/harvard.html

Assessment Guidance
All elements must be successfully completed; failure to achieve any of these elements would result in module failure.

Formative Assessment:
There is one formative assessment associated with this module:

1) Midpoint interview with your mentor
   - You must arrange an interview with your mentor to review your progress in practice. Any significant concerns about your practice raised at this point, or at any other point during your practice experience, may be written into an action plan. You will need to successfully achieve this action plan by the end of your practice experience in order to pass this module.

Summative Assessment:
There are two summative assessments associated with this module:

1) Mandatory Emergency First Aid course
   - You will attend a one-day Department of Health Sciences Emergency First Aid at work course designed to meet the NMC requirement that students complete stage 3 of their programme with an Emergency First Aid certificate. The department will provide verification that you have attended this day.
   - Failure to attend this workshop will result in failure of this module.

2) Completion of Electronic Ongoing Achievement Record (E-OAR) workbook – Practice Experience Six
   It is essential that you arrange a final interview with your mentor prior to your last week of practice and complete the eOAR by the assessment deadline. Full details are available in Electronic Ongoing Assessment Record. Your work will be extracted electronically from the eOAR and the results processed and archived. Failure to complete the eOAR without an approved extension will normally result in a first attempt fail.

To successfully complete this element of the assessment:
- You must complete the Practice Experience Six Electronic Ongoing Assessment Record by the deadline indicated on the Assessment Schedule.
- You must achieve all NMC outcomes and performance criteria. If you are unable to achieve an outcome through lack of opportunity then this must be clearly documented in your Electronic Ongoing Assessment Record.
- You must normally complete a set number of hours during Practice Experience Six. The exact number of hours can be found on your allocation sheet available on the VLE.
- Practice will be assessed as a pass/fail by your practice experience mentor using the outcomes and hours criteria in the eOAR.
- All hours, outcomes and performance criteria must be achieved before progression to the next stage of the Programme.
- If you do not successfully achieve the hours and outcomes for Practice Experience Six you would normally be offered one opportunity to redeem the failure through a four-week action plan in Practice Experience 7 (elective). Failure in Practice Experience 6 requires the Practice Experience 7 (elective experience) becoming a summative placement (requiring formal assessment).
- A student whose elective placement becomes summative (requiring formal assessment) will not be permitted to undertake that placement outside of the University of York placement circuit. Students MUST be aware that any costs incurred in developing and planning an elective experience is taken at their own risk.
- If, at the end of this module, you have a deficit in your practice hours that puts you at risk of being unable to meet the statutory requirement to enable you to register with the NMC you will be contacted by the department with details of the support that is available to you, the implications of this to you and the actions that you must take to redeem these practice hours.
