Assessment Guidance

**Formative – examples of exam questions**
During the module you will be offered:

a) Timetabled group discussions in seminars to encourage the application of theory gained in lectures to your own practice. Seminar topics are based on common scenarios and activities devised by the module team and relate directly to the lecture content.

b) Examination preparation which will include examples of the types/format of questions you will be asked in the summative assessment; timing of the exam; explanation of the answer sheet; and marking process

**Summative – closed examination**
This is a closed examination, consisting of multiple-choice questions (MCQs) and short-answer questions relating to a case study. The MCQs will test concepts discussed within the module and the short answer question section will test the students’ understanding of the application of these in context of nursing practice.

The following weighting will apply:

50% of marks awarded for the MCQ section
50% of marks awarded for the short answer section
