**Marking Criteria**
Guidelines should be read in conjunction with the marking criteria guidance for the module level* noted above: http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/markgrid/

**Confidentiality**
It is a breach of confidentiality to disclose any personal information about a patient, service user, colleague, staff or any other person or place that could in principle enable them to be identified. For further guidance please refer to the departmental policy on Confidentiality at the following link: www.york.ac.uk/healthsciences/student-intranet/exam-assess/conduct/confidentiality/

**Assessment Timing**
The deadline for correctly presenting a submission is 4.30pm on the published submission date. The submission deadline is published on the Programme Assessment Schedule available on the following link: http://www.york.ac.uk/healthsciences/student-intranet/timetables/assessment-schedules/

**Referencing**
You must reference your work in accordance with departmental referencing guidelines which you can access via the following link: http://www.york.ac.uk/integrity/harvard.html

**Assessment Guidance**

**Formative Assessment**
You will have the opportunity to submit and receive feedback on a 500 word (maximum) draft relating to your summative assessment. Your formative draft may include:

- An outline of your chosen topic/essay focus and rationale.
- How you have accessed sources/relevant reading, and examples of key source material you will use to underpin your work.
- An essay plan outlining your proposed structure and how you will develop your discussion – i.e. the main points you plan to cover in your essay.
- Draft section(s) of your essay with specific questions relating to areas of your work you require feedback on (e.g. application of theory to practice; level of analysis; explanation of relevant issues).

**Summative Assessment**

**Part 1 – Essay**
This assignment requires you to write an essay which explores a client-focused case study in relation to elements of social inclusion. The client(s) you choose as the focus of your case study should be an individual(s) you have worked with or are working with in practice, and you should negotiate this with the module leader. The elements of social inclusion could be taken from, for example, care of an older person, someone with a disability or someone who may abuse substances.

Your essay should include:

- A brief outline of what you are going to discuss in your essay, the importance of social inclusion in society and healthcare, and the steps you have taken to ensure confidentiality.
- A brief outline of the client and the situation.
- You should identify the issues of social inclusion which relate to the session topics you have covered in the module e.g. discrimination, prejudice, stereotypes, exclusion/inclusion, empowerment, equality and diversity, self-awareness and power relationships.
For any of the relevant issues you should:
- Examine the literature/evidence.
- Identify and explore examples from your case study and explain why the issue has relevance.
- Discuss the impact of labelling and stigmatisation on exclusion of the individual.
- Discuss the values and attitudes expected of a Nursing Associate to promote social inclusion.
- Summarise points discussed, conclusions drawn and reflect on the implications for your future practice.

**Part 2 – Electronic Ongoing Assessment Record (EOAR)**

You are also required to meet all Promoting Social Inclusion practice learning outcomes and record 180 hours access to your mentor during the assessed period of practice.

The EOAR is marked on a PASS/FAIL basis only.

You must pass all elements of the assessment to pass the module. In the event of a FAIL result you are only required to resubmit the individual FAILED element(s).
