<b>Assessment Guidance</b>			
<u>Formative Assessment</u>			
ORAL PRESENTATION MOCK: In preparation for the oral presentation, you will have the opportunity part way through the module to independently complete an unseen problematic clinical scenario. You should make use of any relevant NMC publications and consider any legal, ethical, professional, and employer obligations. The module leader will then explore through discussion with the cohort possible answers in relation to the four spheres of accountability.			
<u>Summative Assessment</u>			
ORAL PRESENTATION: You will be provided with an unseen problematic clinical scenario within a 24 hour timescale. Making use of any relevant NMC publications you will then proceed to undertake and record an oral presentation, making reference to all four spheres of accountability. The recording should last no longer than 15 minutes, however you will have a total of 24 hours to review the scenario, make any relevant notes, consider an appropriate plan of action, and prepare, record and submit your 15-minute oral presentation. The module leader will give detailed instructions on how to submit your recording.			
Due to the nature of the assessment for this module the University's anonymous marking policy does not apply to the <b>oral presentation</b> assessment as students can be identified through the content or delivery of the assessment. Therefore, assessments submitted should be identified with the <b>student's name only</b> and not the student's examination candidate number.
