An inquiry into the evidence-base for nursing practice <u>Assessment Guidance</u> 10,000-word inquiry into the evidence-base for a chosen nursing practice.	
10,000-word inquiry into the evidence-base for a chosen nursing practice.	
This assessment requires you to complete your dissertation through consideration of the following:	
1. Develop a clear research question relevant to an area of their clinical practice.	
2. Apply an appropriate search methodology to retrieve literature relevant to their identified research and report the outcomes of searching.	question
3. Critically analyse and synthesise the included literature relating to their research question.	
4. Evaluate an approach to research implementation and consider the factors involved in implementir	

Present the dissertation in chapters, using the following format:

- 1. Title page: Should contain your examination candidate number, dissertation title, course title, module code, date of submission, and name of dissertation supervisor.
- 2. Table of contents: Sets out the order of your review.

findings from research.

- 3. List of Abbreviations: Not compulsory but can clarify the meaning of any used.
- 5. Acknowledgements: An opportunity to anonymously thank key people who helped you in completing the review.
- 6. Abstract: Giving a summary of your review in 200 -250 words.
- 7. Introduction: Should include the background, rationale and aims and research question for the dissertation.
- 8. Identifying and including literature for your review: Make explicit the process undertaken to find the literature for the review. This should include a search strategy, the databases searched, 'limits' placed on searches (including date and language), inclusion/exclusion criteria, reporting the results of searching using a PRISMA flow chart, identifying the approach used to appraise for methodological quality of included research.
- 9. Approach to analysing (appraising) and synthesising the literature: Consider the strength of the evidence you have produced and draw together the findings from the included studies to reach an answer to the research

question. Place them in context of existing literature (this may include policy literature, professional standards etc). Also acknowledge any limitations.

- 10. Briefly outline and evaluate an approach to implementing the reviewed evidence and consider the factors involved in implementing the findings of the evidence.
- 11. Conclusion
- 12. References.
- 13. Appendices: Add your anonymised proposal to the appendices of your dissertation. Include other appendices as appropriate.

Formative support

To assist you in developing your dissertation, you will have opportunity to:

- Discuss how to formulate your research question and ideas for your dissertation with your dissertation supervisor.
- Seek clarity and guidance on the appropriateness of your research question and proposal by submitting a dissertation proposal..
- Discuss draft written work with your dissertation supervisor.
