UNIVERSITY *of York*

The Department of Health Sciences

ASSESSMENT GUIDELINE

Module Title	Developing Advanced Clinical Practice		
Module Code	HEA00125M	Module Level*	7
Word Limit /Exam Duration	90 minutes	Assessment Type(s)	Open Book Exam

Marking Criteria

Guidelines should be read in conjunction with the marking criteria guidance for the module level* noted above:
http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/markgrid/

Confidentiality

It is a breach of confidentiality to disclose any personal information about a patient, service user, colleague, staff or any other person or place that could in principle enable them to be identified. For further guidance please refer to the departmental policy on Confidentiality at the following link: www.york.ac.uk/healthsciences/student-intranet/exam-assess/conduct/confidentiality/

Assessment Timing

The deadline for correctly presenting a submission is 4.30pm on the published submission date.
The submission deadline is published on the Programme Assessment Schedule available on the following link:
http://www.york.ac.uk/healthsciences/student-intranet/timetables/assessment-schedules/

Referencing

You **must** reference your work in accordance with departmental referencing guidelines which you can access via the following link: http://www.york.ac.uk/integrity/harvard.html

Assessment Guidance

Formative Assessment

You will develop an action plan to address the capabilities that you want to achieve during this module, in conjunction with your clinical supervisor and academic supervisor.

You will identify a patient with your clinical supervisor who will form the basis of the case study you will use for the open book exam.

Feedback will be provided by your clinical supervisor in relation to your progress towards the capabilities.

Summative Assessment

You will write a case study of no more than 1500 words (+/- 10%) which you will agree with your clinical supervisor. This case study should be based on an episode of care and include reference to; your **assessment, diagnostics, differentials, diagnosis, management of the case and your role**.

The case study will not be marked but you will use it in the open book examination as the foundation for answering 3 questions. You may wish to include appropriate references and tables in your case study. These will not be counted in the word count.

When developing the case study, you should **consider** the Behaviours, Knowledge and Skills (Apprenticeship standard ST0564). You are not expected to explicitly address these, but they will underpin your work.

Behaviour: You will treat people with dignity, respecting people's diversity, beliefs, culture, needs, values, privacy and preferences; show respect and empathy for those you work with; have the courage to challenge areas of concern and work to best practice; be adaptable, reliable and consistent; show discretion, resilience and self-awareness

Knowledge: 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7

Skills: 1.1, 1.2, 1.3, 1.4, 1.5, 1.6, 1.7, 1.8

You will submit your case study with your exam to allow the marker the context in which you have been answering the questions. Your case study may be handwritten or typed. If handwritten, it must be legible: if it is illegible your paper will not be marked. The marker will not comment on or mark the case study.
