## Assessment Guidance

### Quizzes x4 in (10% weighting to module mark)
- Administered every other week.
- The awarded grade is the maximum grade of the first two attempts, provided that the second attempt is completed within 10 minutes of the first; otherwise it is that of the first attempt.
- A grade for a quiz is awarded only if the test is completed prior to the deployment of the next quiz.
- All quizzes carry equal marks.
- The quiz assessment component cannot be reassessed if failed.

### Project (90% weighting to module mark)
- Analysis of and commentary on a simple data set on a health-related area: to be done in own time and submitted as specified on the assessment schedule.
- The data and the assignment will be given in Week 10 of the teaching term.
- Each student has a different data set.
- The assignment will be presented as a 2,000-word report plus relevant figures and tables along with appendices showing the analysis strategy and any other relevant outputs not included in the main report. The total should not exceed 35 pages.

### Re-assessment Guidance
The quiz assessment component cannot be reassessed if failed.
The project can be re-assessed. The reassessment is as original task but a new data set will be provided.
