**Referencing**
You **must** reference your work in accordance with departmental referencing guidelines which you can access via the following link:  
http://www.york.ac.uk/integrity/harvard.html

**Assessment Guidance**
The assessment consists of an Open Book Exam. You will be given a case study of a public health programme or policy, and asked to construct an ethical analysis. You will be provided with a series of ‘prompt’ questions: these are not formal exam questions; rather, they are intended to be of help to you in structuring your ethical evaluation.

Because this is an Open Book Exam, you will be at liberty to use any materials you think will enhance your answer, including the course reading pack and your notes. Because of the somewhat unconventional nature of the assessment, you will be given extensive coaching in this style of assessment by your tutor, as part of the module.
