<p>Assessment Guidance</p> <p>Assessment Title Clinical decisions based on evidence are essential to nursing and healthcare practice. You are asked to produce an academic poster in PowerPoint presenting how evidence-based decision making is used in your practice.</p> <p>Assessment Guidance You will deliver a 15-minute poster presentation to a group of your peers. In your presentation you are required to:</p> <ul style="list-style-type: none"> • Formulate an answerable question related to a selected treatment or clinical practice using an appropriate question formulation tool. • Describe your approach to searching the available literature and report the results of our search in a systematic way in line with established reporting methods. • Appraise the quality of the literature included as a result of your literature search. • Discuss how the literature findings help to answer your question, identifying any gaps in the evidence and the implications of this for your evidence-based practice. • Discuss how factors important in evidence-based nursing inform your decision making in practice. <p>This will be followed by 1-2 questions about your presentation from your examiners.</p> <p>Formative support To assist you in developing your presentation, you will have opportunity to:</p> <ul style="list-style-type: none"> • Discuss the plan for your presentation with a member of the module team. • Practice delivering your presentation with your peer group.
