Assessment Title

Oral presentation on perceptions of health and wellbeing: "Health is a state of complete physical, mental and social well-being and not merely the absence of disease or infirmity" (WHO 1948). In relation to this quote, explain your understanding of health to your peers. Use key psychological /sociological theory to support your argument.

Assessment Guidance

10-minute recorded oral presentation (PowerPoint - maximum of 5 slides + 1 for references).

Discuss your understanding of the concept of health in relation to the WHO (1948) definition.

Use one slide to explain health in relation to psychological theory and outline the key points supported by relevant literature.

Use one slide to explain health in relation to sociological theory and outline the key points supported by relevant literature

Conclude your presentation by outlining how your understanding of the WHO definition of health has changed.

Formative support

To assist you in developing your presentation, you will have opportunity to:

- Receive support in searching for relevant literature and forms of evidence.
- Participate in an online tutorial to develop PowerPoint presentations
- Discuss the plan for your presentation with a member of the module team.

You will have the opportunity to submit a recorded slide on the VLE.
