#### Marking Criteria
Guidelines should be read in conjunction with the marking criteria guidance for the module level* noted above: [http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/markgrid/](http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/markgrid/)

**Confidentiality**

It is a breach of confidentiality to disclose any personal information about a patient, service user, colleague, staff or any other person or place that could in principle enable them to be identified. For further guidance please refer to the departmental policy on Confidentiality at the following link: [www.york.ac.uk/healthsciences/student-intranet/exam-assess/conduct/confidentiality/](http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/conduct/confidentiality/)

**Assessment Timing**

The deadline for correctly presenting a submission is 4.30pm on the published submission date. The submission deadline is published on the Programme Assessment Schedule available on the following link: [http://www.york.ac.uk/healthsciences/student-intranet/timetables/assessment-schedules/](http://www.york.ac.uk/healthsciences/student-intranet/timetables/assessment-schedules/)

**Referencing**

You must reference your work in accordance with departmental referencing guidelines which you can access via the following link: [http://www.york.ac.uk/integrity/harvard.html](http://www.york.ac.uk/integrity/harvard.html)

**Assessment Guidance**

### Part 1

**An Objective Structured Clinical Examination (OSCE)** to assess consultation skills, safety and competence in the principles and practice of physical examination appropriate to minor illness presentations

The OSCE will be in two stages:

- The first will be a formative which will provide the student with constructive feedback in preparation for the summative OSCE and conducted in a formal examination environment. This will consist of two assessment stations.

- The second will be a summative OSCE at the end of the module which is a formal examination and as such will be conducted under examination conditions (refer to Student Handbook for full details). There will be four assessment stations.

### Part 2

**Unseen closed book multiple choice / short answer question paper** that assesses a broad range of knowledge and skills in minor illness care.

Please note that for this module there are two pieces of assessment:

1. The OSCE assessment element is marked on a Pass/Fail basis. Each OSCE is marked individually and the student will only resit the assessment they were unsuccessful in.
2. The examination assessment element is given an academic mark

Due to the nature of the assessment for this module the University’s anonymous marking policy does not apply to the OSCE assessment as students can be identified through the content or delivery of the assessment. Therefore assessments submitted should be identified with the student’s name only and not the student’s examination candidate number.

However the assessment for examination is anonymously marked and therefore should be submitted with the student’s examination candidate number only.
