## Marking Criteria
Guidelines should be read in conjunction with the marking criteria guidance for the module level* noted above:
http://www.york.ac.uk/healthsciences/student-intranet/exam-assess/markgrid/

## Confidentiality
It is a breach of confidentiality to disclose any personal information about a patient, service user, colleague, staff or any other person or place that could in principle enable them to be identified. For further guidance please refer to the departmental policy on Confidentiality at the following link:
www.york.ac.uk/healthsciences/student-intranet/exam-assess/conduct/confidentiality/

## Assessment Timing
The deadline for correctly presenting a submission is 4.30pm on the published submission date.
The submission deadline is published on the Programme Assessment Schedule available on the following link:
http://www.york.ac.uk/healthsciences/student-intranet/timetables/assessment-schedules/

## Referencing
You must reference your work in accordance with departmental referencing guidelines which you can access via the following link:
http://www.york.ac.uk/integrity/harvard.html

## Assessment Guidance

### ASSESSMENT PART 1: OSCE – Objective Structured Clinical Examination
This will assess consultation skills, safety and competence in the principles and practice of physical examination appropriate to minor injuries.

- Students will be assessed performing a clinical consultation with a simulated patient.
- Students will be assessed performing clinical examinations with a simulated patient.
- Students will be assessed by an examiner against marking criteria made available throughout the module. (due to the nature of the assessment this is exempt from the universities’ anonymous marking policy)
- The OSCE may be video recorded to facilitate feedback and moderation of marking. (All data is stored securely).
- Students will complete a Formative OSCE which will provide the student with constructive feedback in preparation for the summative OSCE and conducted in a formal examination environment.
- Students will complete a Summative OSCE at the end of the module. This is a formal examination and will be recorded as PASS/FAIL. In the event of a fail at first attempt you will be required to be reassessed on the failed component.
- Students must demonstrate competence in 75% of the criteria for the examination. Some criteria are considered “essential”; these criteria must be demonstrated to pass. Students must demonstrate safe and competent practice throughout the examination.

**OSCE.** *(Objective Structured Clinical Examination)* This is an assessment where students are required to demonstrate knowledge and skills relevant to clinical practice whilst being observed by an examiner.

**Simulated Patient.** This is a patient played by an actor who will take on the role of the particular condition being examined.

### ASSESSMENT PART 2: EXAMINATION – Unseen closed book multiple choice / short answer question paper
This paper will assess a broad range of knowledge and skills in minor injuries care.
This paper will provide the overall percentage mark for the module.
