

THE UNIVERSITY *of York*

MA in Stained Glass Conservation and Heritage Management
In Association with the Cathedrals Fabric Commission for England

PROTECTIVE GLAZING CURRENT PROJECTS - NEW PERSPECTIVES 9-10 March 2009

Recent and current projects in which external protective glazing is playing a key role in securing a future for historic stained glass will be presented by the architects and conservators responsible for them. The challenges of accommodating external protective glazing within historically sensitive contexts will be explored and projects at Canterbury, Wells, and Lichfield Cathedrals, Norbury parish church, St George's Chapel, Windsor and York Minster will be described. The programme will showcase the latest research findings, setting the issues in a national and international context.

Speakers: Keith Barley, Barley Studios; Tobit Curteis, Tobit Curteis Associates; Dr David Martlew, Society of Glass Technology; Dr Ivo Rauch, Buero Rauch, Koblenz and University of York; Léonie Seliger, Cathedral Studios, Canterbury

Location: York Medical Society, 23 Stonegate, York YO1 8AW

The York Medical Society (<http://www.yorkmedsoc.org/index.asp>) has occupied 23 Stonegate since 1832. Number 23 is one of the larger timber-framed houses in York, a substantial part of the house dating from 1590. Medieval Stonegate was home to many medieval glaziers and the former premises of York glass-painter J.W. Knowles are nearby.

Cost: £90 per person (including tea and coffee, excluding lunch)

I/We wish to take part in this event, and enclose a cheque for £90.00 per person
