**Tutor response:**

- Overall, It looks like you all enjoyed the course and found the activities and resources helpful to your learning process. I am pleased to see you understood my passion and commitment towards the module and you could feel the enthusiasm I put in my work throughout the year.

All areas were rated above 4, except for the timetable that you evaluated slightly below 3.

None of you left any comments in this area which makes it difficult for us to understand the reason behind this (time in the day?, coincidence with similar modules in other languages?) We will nevertheless look into it to make sure we can provide an answer in similar situations in the future

Delivering this module was a real pleasure, I put lots of work and enthusiasm into it to make sure you could get the most enjoyable and meaningful outcomes. Grammar is not the most “popular” subject for some students so it is extremely satisfying to see the final result was positive.

Thank you for your feedback.
