**Tutor response:**

I am fully aware that the content covered in this module can seem complex, particularly when taught in the target language. I am pleased to see that the majority of students appreciated being challenged. Being taken (guided) outside your comfort zone is for me what university experience should be. Reading students' comments, the module managed to do just that. I understand that it also means that seminars can be stressful and topics uninteresting for some. I will keep trying my best to make content as accessible as possible when reshaping the content for the new semesterised module. I take note of the comment about the fact that VLE resources

are difficult to navigate at first. I will endeavour to revise the structure when revising the modules for the new VLE ultra site.

Thank you for your feedback.
