Constructive criticisms	Number
I have found the structure of the content really good. Having clear topics that we've covered has really helped. However, I feel like having 2 hour long seminars (instead of the 1 hour that we have for other modules, for example) can cause problems with concentration and it then means we're not able to communicate about it face to face, properly, for a week.	

Tutor response:

I am glad students enjoyed the module and it was a joy to teach it.

Constructive Criticism

Thank you for your comment regarding the seminar hours. That is an ongoing discussion and as you can imagine the views are usually varied and some students prefer a 2 hour slot, some prefer 1 hour slots. On average the majority usually prefers the 2 hour slot as they feel we are getting more done in that timeframe.

Please note that the structure will change next year with the 3 hours divided into one 2 hour slot and one 1 hour slot. This will hopefully also help with timetabling issues.

Thank you for your feedback.
