You previously said that nuclear weapons are one of the issues that would help you decide how you would vote at the next election... Would you be more or less likely to vote for a party that said it would get rid of nuclear weapons if it won at the next election or would it make no difference?  
[Only to those who said 'nuclear weapons' in previous question, N=477]

Fieldwork: 6th - 8th March 2013

You may have seen or heard that the government has embarked on a programme to replace Britain’s Trident nuclear weapons system. The government says this will cost around £25 billion plus £2-3 billion a year to run. A major decision will be made in 2016 on whether to proceed. Do you think the UK should...?

Get rid of its nuclear weapons now

Oppose the decision to replace it in 2016

Keep the current system running as planned, but do not take a decision to replace it in 2016 and spend the money on something else instead

Keep the current system and take a decision to replace it in 2016

Don’t know

UK nuclear weapons are based in Scotland. A referendum on Scottish independence will take place in 2014. The ruling Scottish National Party has vowed to remove all nuclear weapons from Scotland if it wins the referendum and Scotland becomes an independent state. If that happens, UK nuclear weapons would need to be relocated to a new site in England or Wales.

Generally speaking, would you support or oppose the relocation of UK nuclear weapons to a site near to you?
