

PSYCH! YORK

Department of Psychology, University of York

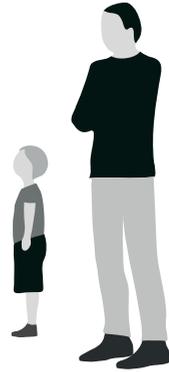

Thursday
30th May
11:00 — 16:30

The Hospitium, Museum Gardens
York, YO30 7DR

Interactive Family Fun

Colouring and crafts for younger children and interactive activities for the whole family

- **The science of hearing:** auditory illusions, speech perception and the sound of cochlear implants!
- **What the nose knows:** Can we talk about smells?
- Deceiving the mind: **'The Rubber hand illusion'** and the feeling of body ownership
- Can you speak ape? How **chimpanzees and bonobos** use gestures to communicate
- **'Who's a good boy?!'** Baby-language and **communication with dogs**
- Perceptual pleasures and directing attention, **the science of preference and choice change**
- **What does your brain do when you're asleep?** Hear about how we record activity in the sleeping brain!
- Learn more about possible disorders of vision with our **sight-loss simulation goggles**
