Update from the Dean

A big week in the YGRS calendar - on Saturday we are hosting the [3MT final](https://www.york.ac.uk/events/3mt-fin) as part of the Festival of Ideas. It's the first time that 3MT has been at the weekend, so we are hoping for a big turn out to support the 10 finalists. Do join us - it is a fun event and a great showcase for the impactful research of our PGR community.

With ongoing debates around freedom of speech and academic freedom (see [Notes on York’s ‘Regulation 10’](https://www.york.ac.uk/services/students/policies/regulation10)), York has been experiencing two different forms of protest with an encampment and a remake of a Pink Floyd classic. And of course, we are in the midst of a general election. Whether you feel like ‘another brick in the wall’ or ‘comfortably numb’, do check out [YUSU’s guide to the general election](https://www.yusu.org.uk/elections) on what it means for students and also how to register to vote.

We are delighted at the [UK Migration Advisory Committee’s explicit recommendation](https://www.gov.uk/government/publications/uk-migration-advisory-committee-annual-report-2024) that the Graduate Visa Route (GR) should remain in its entirety. International candidates make up 40% of our PGR community and are vital to the success of our research endeavours at York. And we welcome the opportunity to retain more of our PGR alumni within our research groups.

Best wishes,
Kate

If you’re planning on studying off campus over the summer, you may need to [connect to the Virtual Private Network (VPN)](https://www.york.ac.uk/services/it/VPN) so you can access restricted services and get access to your filestore. For those who will be using IT resources overseas, make sure you read our [using University IT facilities overseas guidance](https://www.york.ac.uk/services/it/overseas) before you travel as some countries restrict the IT services you can access. Students working from China should use [China Connect](https://www.york.ac.uk/services/it/chinaconnect) to access University services and Google workspace.
