

NAIROBI, 2017: A POLLUTED MELTING POT OF INDUSTRY, COMMERCE AND TOURISM...

OVER HALF OF NAIROBI'S RESIDENTS LIVE IN SLUMS, LOCATED IN INDUSTRIAL AREAS.

THE AIR IS POLLUTED FROM INDUSTRY AND FROM STOVES.

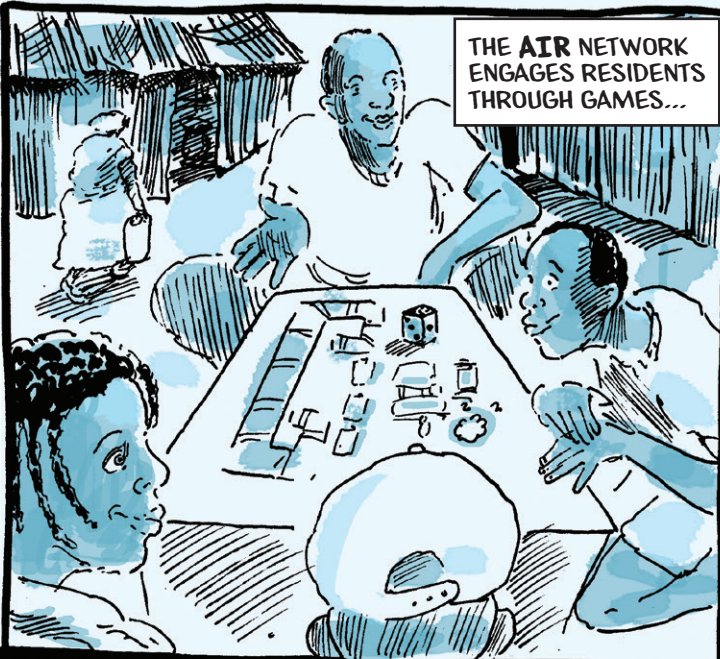

POLLUTION CAN ONLY BE SEEN UNDER A MICROSCOPE, BUT AFFECTS PEOPLE'S HEALTH

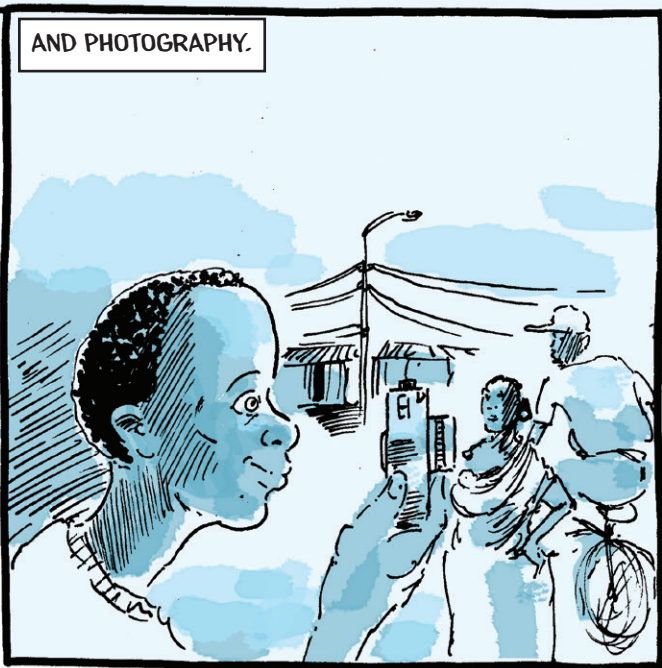

RESIDENTS SHARE EXPERIENCES AND IDEAS WITH RESEARCHERS ABOUT HOW TO MAKE THE AIR CLEANER.

THE AIR NETWORK ENGAGES RESIDENTS THROUGH GAMES...

THEATRE...

AND PHOTOGRAPHY.

RESEARCHERS IN THE UK AND KENYA SPREAD THESE IDEAS FURTHER AND DEVELOP FUNDING BIDS WITH RESIDENTS TO CONTINUE THE PROJECT.
