INDUSTRY SECTORS IN TOKYO:

Students interning in Tokyo are placed with companies ranging from innovative start-ups to global organizations, multinationals, and NGOs in a variety of industry sectors. Sample internship placements include:

**Business and Communications — marketing, operations, market research such as:**
- Brand Communication
- Digital Marketing
- Market Research

**Information Technology and Computer Science — front-end and back-end coding, IT and technical customer support such as:**
- API Development
- System Development

**Sample internship roles and responsibilities:**
- Propose article plans, conduct interviews, and write articles for company-owned media
- Provide support for Japanese team members when English is required, such as translating and/or proofreading English-language documents
- Conduct research and report on the work style in the US and/or in your home country
- Create articles and blog posts using social media, conduct market research on competitive products

**Nonprofit and NGO — program development and management, think tanks and advocacy groups such as:**
- Public Policy and International Affairs
- Human Rights and Social Justice

Please note: Internships in an English language work environment are available in addition to those in Japanese. Japanese language skills will offer a larger variety of placement options.

Exact internship is determined through personalized placement process for each student.

In being able to preserve the old so well while also keeping up with the new, Japan has created a strong and unique identity for itself which cannot be seen anywhere else in the world.
