1. The **credit level** is an indication of the module’s relative intellectual demand, complexity and depth of learning and of learner autonomy. Most modules in postgraduate programmes will be at Level 7/Masters. Some modules are permitted to be at Level 6/Honours but must be marked on a pass/fail basis. See University Teaching Committee guidance for the limits on Level 6/Honours credit.

2. The **credit value** gives the notional workload for the module, where 1 credit corresponds to a notional workload of 10 hours (including contact hours, private study and assessment).

3. **Special assessment rules** (requiring University Teaching Committee approval)
   - P/F – the module is marked on a pass/fail basis (NB pass/fail modules cannot be compensated)
   - NC – the module cannot be compensated
   - NR – there is no reassessment opportunity for this module. It must be passed at the first attempt

4. **ASMT** – Autumn Term, **SpT** – Spring Term, **SuT** – Summer Term, **SuVac** – Summer vacation

5. **Independent Study Modules** (ISMs) are assessed by a dissertation or substantial project report. They cannot be compensated (NC) and are subject to reassessment rules which differ from ‘taught modules’. Masters programmes should include an ISM(s) of between 60 and 100 credits. This is usually one module but may be more.
