Purpose and learning outcomes of the programme		
Statement of purpose for applicants to the programme		
<p>The BA in History of Art equips you with the ability to analyse images and material objects, skills which are of increasing importance in today's visual world. Art historians study works of art and architecture in their historical contexts to understand who creates and who views them, how and why they are used, and what they reveal about culture and social relationships. History of Art is an international discipline which encourages you to think about art and architecture in local, national and global contexts. We are recognised for our excellence in research-led teaching as well as our friendly, informal atmosphere, so you can select from a wide variety of module choices, and at the same time receive highly personalised attention. You will learn in an interactive and stimulating environment, where you can discuss your ideas in small groups with experts and fellow students, and develop your capacity for critical thought and professional, persuasive presentation. Like other subjects in the humanities, History of Art requires you to develop a body of knowledge, formulate complex arguments and communicate ideas effectively, and you also gain expertise in visual analysis and working with images, which will prepare you for a wide range of possible careers.</p>		
<p>Programme Learning Outcomes Please provide six to eight statements of what a graduate of the programme can be expected to do. Taken together, these outcomes should capture the distinctive features of the programme. They should also be outcomes for which progressive achievement through the course of the programme can be articulated, and which will therefore be reflected in the design of the whole programme.</p>		
PLO	On successful completion of the programme, graduates will be able to:	
1	Deploy a broad knowledge of varied types of art and architecture from diverse periods and places, together with understanding of their historical and cultural contexts, with in-depth critical understanding of more than one subfield.	
2	When encountering new visual material either first-hand or in reproduction, apply high-level descriptive and observational skills, develop critical visual analysis drawing upon an appropriate range of methodological approaches, and identify relevant sources for further research.	
3	Communicate complex ideas effectively, both orally and in writing, well supported by visual material where required, at varied lengths and registers appropriate to the context and intended audience.	
4	Confront and interrogate widely-held assumptions, understand how interpretations of culture and its contexts have changed over time both incrementally and in more radical paradigm shifts, and continue to engage critically with future changes in ways of thinking.	

5	Carry out an original and independent investigative project from beginning to end: identify and assemble relevant primary material, develop relevant methodologies for interpretation, consult significant source materials and experts, manage time in an appropriate framework, and complete the project to a deadline in the required format.
6	Work both independently and as an effective team member in pursuit of an objective, exercising initiative and leadership when appropriate.
7	Evaluate how artworks are presented to the public in museums, galleries and other settings, and propose new or alternative strategies for display.
8	For History of Art with a Year Abroad only. Adapt successfully to unfamiliar contexts and take advantage of the intellectual and wider benefits of intercultural experiences.
Programme Learning Outcome for year in industry (where applicable)	
For programmes which lead to the title 'with a Year in Industry' – typically involving an additional year – please provide either a) amended versions of some (at least one, but not necessarily all) of	
n/a	
Programme Learning Outcome for year abroad programmes (where applicable)	
For programmes which lead to the title 'with a Year Abroad' – typically involving an additional year – please provide either a) amended versions of some (at least one, but not necessarily all) of	
A 4-year variant of the degree will begin in 2017/18. Because we have a range of partner universities, and students will have a great deal of flexibility in what they choose to study, we propose a separate PLO 8 : Adapt successfully to unfamiliar contexts and fully appreciate the intellectual and wider benefits of intercultural experiences.	
By living abroad and studying for an extended period at a different university, students gain the opportunity to expand the scope of their studies, encounter a wider range of artworks at first hand, meet people, establish new networks and experience alternative forms of teaching and learning. By embracing the academic life of their host institution and the cultural opportunities of the city in which they are living they will be better equipped to adapt to local institutions, social structures and cultures, and navigate daily life using another language. At Stages 2 and 3 at York they will have the opportunity to draw upon their experience, expanded language skills and academic knowledge.	
Explanation of the choice of Programme Learning Outcomes Please explain your rationale for choosing these PLOs in a statement that can be used for students (such as in a student handbook). Please include brief reference to:	
i) Why the PLOs are considered ambitious or stretching?	
The PLOs define the key attributes that will benefit our graduates in employment or further study. The PLOs signal an ambition that our graduates will distinguish themselves in a highly competitive working environment by their their acute visual skills, their ability to interpret and express complex ideas, and initiate and complete timely, well-researched projects independently and collaboratively.	
ii) The ways in which these outcomes are distinctive or particularly advantageous to the student:	
The History of Art degree at York is distinctive in several ways. 1. The range of material and approaches students can learn (our range of staff expertise and module choice is unusually broad for an art history department) 2. The high concentration on small-group learning across all three years, especially in seminar discussions, requires students to take a highly active role throughout their degree and gives them close access to their tutors 3. The high quality of research-led content and approaches in the teaching programme. 4. The substantial curatorial experience of a majority staff members, which can impact module teaching (most obviously in Museology & Curatorship, though often in option modules too).	
iii) How the programme learning outcomes develop students' digital literacy and will make appropriate use of technology-enhanced learning (such as lecture recordings, online resources, simulations, online assessment, 'flipped classrooms' etc)?	

Students in History of Art work extensively with digital material for class presentations/discussion, for their research, and for illustrating written work. All modules use the VLE at a minimum as a means of facilitating information transfer and communications, and some modules may use it for more experimental forms of teaching and learning. In other respects, digital art is an ever more visible and evolving presence in contemporary culture, and an aspect of the discipline that is especially well served by the expertise of the department.

iv) How the PLOs support and enhance the students' employability (for example, opportunities for students to apply their learning in a real world setting)?

The programme's employability objectives should be informed by the University's Employability Strategy:

<http://www.york.ac.uk/about/departments/support-and-admin/careers/staff/>

Advanced analytical and communications skills and a capacity for self-directed learning are essential for any graduate-level job for students with humanities degrees. **PLO 7** is particularly beneficial for students who go on to museum and gallery careers, but it enables all students to experience how these and other institutions benefit from academic work.

vi) How will students who need additional support for academic and transferable skills be identified and supported by the Department?

Because of the preponderance of small-group learning in our department, students with difficulties are usually identified by their module tutors and referred to their supervisor and the Chair of the Board of Studies for support. Personal supervisors may also detect recurring patterns of difficulty across modules and refer their supervisees for further support.

vii) How is teaching informed and led by research in the department/ centre/ University?

Almost all of our modules are directly informed by staff research. At Stage 1 the module titles and general aims remain fairly constant, but specific content often varies from year-to-year, depending on evolving staff research interests. The option modules at Stages 2 and 3 are led by staff research interests and thus develop continually. New modules are often introduced, and long-standing modules may be withdrawn or redesigned to incorporate changes in the field.

Stage-level progression

Please complete the table below, to summarise students' progressive development towards the achievement of PLOs, in terms of the characteristics that you expect students to demonstrate at

Note: it is not expected that a position statement is written for each PLO, but this can be done if preferred (please add information in the 'individual statement' boxes). For a statement that app

Stage 1

On progression from the first year (Stage 1), students will be able to:

On progression from the first year (Stage 1), students will be able to recognise and engage with the salient trends and challenges of art history, and will have a developing familiarity with the conventions of scholarly writing and debate.

PLO 1	PLO 2	PLO 3	PLO 4	PLO 5	PLO 6	PLO 7	
Recognise a range of art and architecture from different periods and places, with an understanding of the importance of historical and cultural context.	Analyse artworks visually from a variety of perspectives, with an awareness of the context in which the work is encountered.	Demonstrate a general facility in communicating arguments on different topics, in person and in writing.	Begin to identify how the approaches of art historians and other writers are inflected by views characteristic of their time, place and social context.	Produce written work to a specific brief, working effectively to a deadline.	Communicate ideas about art and architecture effectively, and with growing confidence, individually and in small groups.	Recognise how circumstances of display impact upon the encounter with, and interpretation of, art and architecture.	

Stage 2

On progression from the second year (Stage 2), students will be able to:

On progression from the second year (Stage 2), or third year (Stage 3) for the Year Abroad programme, students will be able to engage with more complex ideas, working more independently and critically, and developing a range of knowledge and skills that can be employed in a professional context.

PLO 1	PLO 2	PLO 3	PLO 4	PLO 5	PLO 6	PLO 7
Engage with works of art and architecture in greater depth, around specific periods, places or themes, and with a growing capacity to relate disparate materials and intellectually demanding ideas.	Analyse artworks from a range of defined geographical, chronological or thematic parameters, and identify the kinds of visual analysis most appropriate to them.	Produce more complex written work to a specific brief, and contribute to seminar discussions, informally and formally, in a variety of contexts.	Demonstrate a critical awareness of the contingent, contested nature of art history, and articulate how their ideas relate to existing scholarship.	Develop a viable project proposal or group activity, drawing on relevant methodologies and independent reading and research, working within an appropriate time frame.	Work with greater confidence and skill in a variety of group dynamics and situations, and provide constructive feedback to others.	Evaluate, analyse and respond to the different display practices adopted by various museums and galleries.

Programme Structure

Module Structure and Summative Assessment Map

Please complete the summary table below which shows the module structure and the pattern of summative assessment through the programme.

'Option module' can be used in place of a specific named option. If the programme requires students to select option modules from specific lists these lists should be provided in the next section.

From the drop-down select 'S' to indicate the start of the module, 'A' to indicate the timing of each distinct summative assessment point (eg. essay submission/ exam), and 'E' to indicate the end of the module.

If summative assessment by exams will be scheduled in the summer Common Assessment period (weeks 5-7) a single 'A' can be used within the shaded cells as it is understood that you will not be able to sit the exam in the summer term.

Please Select Y/N:

Careers & Placements - 'With Placement Year' programmes

Students on all undergraduate and integrated masters programmes may apply to spend their third year on a work-based placement facilitated by Careers & Placements. Such students would return to their studies at Stage 3 in the following year, thus lengthening their programme by a year. Successful completion of the placement year and associated assessment allows this to be recognised in programme title, which is amended to include 'with Placement Year' (e.g. BA in XYZ with Placement Year'). The Placement Year also adds a Programme Learning Outcome, concerning employability. (See Careers & Placements for details).

In exceptional circumstances, UTC may approve an exemption from the 'Placement Year' initiative. This is usually granted only for compelling reasons concerning accreditation; if the Department already has a Year in Industry with criteria sufficiently generic so as to allow the same range of placements; or if the programme is less than three years in length.

Programme excluded from Placement Year?

If yes, what are the reasons for this exemption:

Study Abroad (including Year Abroad as an additional year and replacement year)

Students on all programmes may apply to spend Stage 2 on the University-wide North America/ Asia/ Australia student exchange programme. Acceptance onto the programme is on a competitive basis. Marks from modules taken on replacement years count toward progression and classification.

Does the programme include the opportunity to undertake other formally agreed study abroad activities? All such programmes must comply with the Policy on Study Abroad

Students may transfer in to or out of the programme in accordance with University regulations. Transfers will be dependent upon student numbers and available places.

ii) Transfers out of the programme will be possible? (please select Y/N)

Yes

Additional details:

Students may transfer in to or out of the programme in accordance with University regulations. Transfers will be dependent upon student numbers and available places.

Exceptions to University Award Regulations approved by University Teaching Committee

Exception

Please detail any exceptions to University Award Regulations approved by UTC

Date approved

Date on which this programme information was updated:

21/12/2016

Please note:

The information above provides a concise summary of the main features of the programme and the learning outcomes that a typical student might reasonably be expected to achieve and demonstrate if they take full advantage of the learning opportunities that are provided.

Detailed information on the learning outcomes, content, delivery and assessment of modules can be found in the module descriptions.

The University reserves the right to modify this overview in unforeseen circumstances, or where the process of academic development, based on feedback from staff, students, external examiners or professional bodies, requires a change to be made. Students will be notified of any substantive changes at the first available opportunity.

Programme Map

Please note: the programme map below is in interim format pending the development of a University Programme Catalogue.

Programme Map: Module Contribution to Programme Learning Outcomes

This table maps the contribution to programme learning outcomes made by each module, in terms of the advance in understanding/ expertise acquired or reinforced in the module, the work by which students achieve this advance and the assessments that test it. This enables the programme rationale to be understood:

- Reading the table vertically illustrates how the programme has been designed to deepen knowledge, concepts and skills progressively. It shows how the progressive achievement of PLOs is supported by formative work and evaluated by summative assessment. In turn this should help students to understand and articulate their development of transferable skills and to relate this to other resources, such as the Employability Tutorial and York Award;
- Reading the table horizontally explains how the experience of a student at a particular time includes a balance of activities appropriate to that stage, through the design of modules.

Stage	Module	Programme Learning Outcomes						
		PLO1	PLO2	PLO3	PLO4	PLO5	PLO6	PLO7
		Deploy a broad knowledge of varied types of art and architecture from diverse periods and places, together with understanding of their historical and cultural contexts, with in-depth critical understanding of more than one subfield.	When encountering new visual material either first-hand or in reproduction, apply high-level descriptive and observational skills, develop critical visual analysis drawing upon an appropriate range of methodological approaches, and identify relevant sources for further research.	Communicate complex ideas effectively, both orally and in writing, well supported by visual material where required, at varied lengths and registers appropriate to the context and intended audience.	Confront and interrogate widely-held assumptions, understand how interpretations of culture and its contexts have changed over time both incrementally and in more radical paradigm shifts, and continue to engage critically with future changes in ways of thinking.	Carry out an original and independent investigative project from beginning to end: identify and assemble relevant primary material, develop relevant methodologies for interpretation, consult significant source materials and experts, manage time in an appropriate framework, and complete the project to a deadline in the required format.	Work both independently and as an effective team member in pursuit of an objective, exercising initiative and leadership when appropriate.	Evaluate how artworks are presented to the public in museums, galleries and other settings, and propose new or alternative strategies for display.

Stage 1	The Materials of Art & Architecture	Progress towards PLO	Students will explore the history of art and architecture as a history of crafted objects, as well as a ideas, encountering a range of artworks/architecture approached through questions of material and technique.	Students will begin to develop the skills and confidence to describe and analyse unfamiliar works of art in a scholarly way, with particular attention to the use of different materials and techniques.	Students will begin to develop the skills and confidence to describe and convey the complexities of different materials and techniques.	Students will begin to develop a critical understanding of how the history of art and architecture has been shaped by changing attitudes towards different materials.	Students will exercise judgment and planning by choosing a specific procedural essay topic, which they will research and write in the context of the broader themes and questions raised by the module.	Students will help to shape a workshop either by preparing and delivering an individual, informal presentation to the rest of the group, or by working collaboratively, with one or more fellow student, in designing and delivering a presentation.	Aspects of the module may consider the transformative potential of institutional and private space in the making of art, and the ways in which works of art have been designed with specific audiences and environments in mind.	
		By working on (and if applicable, assessed through)	Paired weekly lectures with preparatory reading and associated workshop activities including discussion, presentations and one formative essay. Assessed by a two-hour closed image-based exam.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings. One formative essay. Assessed by a two-hour closed image-based exam.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings. One formative essay. Assessed by a two-hour closed image-based exam.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings. One formative essay. Assessed by a two-hour closed image-based exam.	A formative essay conceived in the context of the module.	Leading or participating in a workshop presentation, building on themes and ideas introduced through lectures and related readings.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings.	

Stage 1	Critical Readings in the History of Art	Progress towards PLO	Students will gain an appreciation of the history and potential of the history of art through a range of influential case studies that have helped to shape the discipline.	Students will encounter and learn to distinguish between a diversity of methodological approaches that have helped to shape the discipline.	Students will assess and respond to a range of methodological approaches to the history of art, with a view to developing their own critically informed voice.	Students will gain a fuller understanding of some of the major historiographical changes of direction, and begin to recognise the importance of critical distance when reading the work of other art historians.	Students will exercise judgment and planning by choosing one procedural essay topic and one summative essay topic, which they will research and write in the context of the broader themes and questions raised by the module.	Students will help to shape a seminar either by preparing and delivering an individual presentation, or by working collaboratively, with one or more fellow student, in designing and delivering a presentation.	Students will consider the institutional contexts within which some of the formative approaches to the discipline have been forged.	
		By working on (and if applicable, assessed through)	Weekly seminars with preparatory reading and related group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	Weekly seminars with preparatory reading and group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	Weekly seminars with preparatory reading and group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	Weekly seminars with preparatory reading and group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	One formative essay and one summative essay.	Leading or participating in a workshop presentation, building on themes and ideas introduced through related readings. Assessed by the mark awarded for seminar participation.	Weekly seminars with preparatory reading and group activities including discussion and presentations.	

Stage 1	Reinventing Antiquity	Progress towards PLO	Students will gain an appreciation of the importance and limits of chronology by studying a range of art and architecture across different time periods, approached by theme.	Students will begin to develop the skills and confidence to describe and analyse unfamiliar works of art in a scholarly way, with particular attention to the transmission of ideas over time.	Students will begin to develop the skills and confidence to employ appropriate terminology in effective ways when discussing the reinvention and appropriation of artistic forms and ideas.	Students will begin to develop a critical understanding of, and response to, the classical tradition as a dominant western narrative of art history.	Students will exercise judgment and planning by choosing a specific procedural essay topic, which they will research and write in the context of the broader themes and questions raised by the module.	Students will help to shape a workshop either by preparing and delivering an individual, informal presentation to the rest of the group, or by working collaboratively, with one or more fellow student, in designing and delivering a presentation.	Students may consider how the changing display of works of art from the past can contribute to its reinvention and appropriation.	
		By working on (and if applicable, assessed through)	Paired weekly lectures with preparatory reading and associated workshop activities including discussion, presentations and one formative essay. Assessed by a two-hour closed exam.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings. One formative essay. Assessed by a two-hour closed image-based exam.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings. One formative essay. Assessed by a two-hour closed image-based exam.	Contributions to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings. One formative essay. Assessed by a two-hour closed image-based exam.	A formative essay conceived in the context of the module.	Leading or participating in a workshop presentation, building on themes and ideas introduced through lectures and related readings.	Contributing to workshop discussions and presentations, building on themes and ideas introduced in lectures and related readings.	

Stage 1	Theory for Art Historians	Progress towards PLO	Students will gain an appreciation of the wider intellectual context of the history of art by studying a range of theoretical approaches that have helped to shape the discipline.	Students will encounter and learn to distinguish between a range of theoretical ideas that in different ways have helped to shape the discipline.	Students will begin to develop a theoretically informed way of writing and talking about art and architecture.	Students will gain a fuller understanding of some of the major theoretical challenges to the modern discipline, and an appreciation of how ideas continue to provoke new ways of thinking about art and its histories.	Students will exercise judgment and planning by choosing one procedural essay topic and one summative essay topic, which they will research and write in the context of the broader themes and questions raised by the module.	Students will help to shape a seminar either by preparing and delivering an individual presentation, or by working collaboratively, with one or more fellow student, in designing and delivering a presentation.	Students may consider ways in which the spaces and contexts of display contribute to the status and significance of works of art, and how these factors have been theorised.	
		By working on (and if applicable, assessed through)	Weekly seminars with preparatory reading and related group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	Weekly seminars with preparatory reading and group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	Weekly seminars with preparatory reading and group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	Weekly seminars with preparatory reading and group activities including discussion and presentations, with one formative essay. Assessed by a 1,500-word essay and seminar performance throughout the term.	One formative essay and one summative essay.	Leading a workshop presentation, building on themes and ideas introduced through related readings. Assessed by the mark awarded for seminar participation.	Weekly seminars with preparatory reading and group activities including discussion and presentations.	

Stage 1	Objects in Focus	Progress towards PLO	Students will develop a range of critical skills by examining a single topic in greater depth, and studying artworks at first hand, as a transition to Stage 2 work.	Students will study a discrete art historical topic in a sustained and cumulative way over an intensive four-week period.	Students will experience the diverse and multifaceted nature of art historical enquiry, exploring multiple approaches to a discrete art-historical topic.	Students will consider a discrete art historical topic from multiple perspectives, to experience the diverse and multifaceted nature of art historical enquiry.		Students will help to shape a seminar either by preparing and delivering an individual presentation, or by working collaboratively, with one or more fellow student, in designing and delivering a presentation.	Students will pay attention to the institutional and other contexts of display within which the module's discrete art historical topic finds meaning.	
		By working on (and if applicable, assessed through)	Field trip and seminars with presentations and group discussion. Assessed by a two-day open exam comprising one 1,500-word essay.	Field trip and seminars with presentations and group discussion. Assessed by a two-day open exam comprising one 1,500-word essay.	Field trip and seminars with presentations and group discussion. Assessed by a two-day open exam comprising one 1,500-word essay.	Field trip and seminars with presentations and group discussion. Assessed by a two-day open exam comprising one 1,500-word essay.		Leading or participating in a workshop presentation, building on themes and ideas introduced by the module.	Field trip and seminars with presentations and group discussion. Assessed by a two-day open exam comprising one 1,500-word essay.	
Stage 1	The Art of Describing (optional)	Progress towards PLO	Students will experience a range of different works of art and architecture in local museums, galleries and public spaces.	Students will begin to consider the value and complexity of experiencing artworks at first hand versus in reproduction.	Students will develop a fuller understanding of the particular challenges of turning direct experiences and interpretations of works of art into persuasive verbal and textual communication.	Students will begin to develop a critical awareness of the different contexts and spaces in which art and architecture is experienced.	Students will exercise judgment and planning by choosing a specific summative essay topic, which they will research and write in the context of the broader themes and questions raised by the module.	Students will help to shape a seminar either by preparing and delivering an individual presentation, or by working collaboratively, with one or more fellow student, in designing and delivering a presentation.	Students will experience and begin to evaluate a range of different works of art and architecture <i>in situ</i> in local museums, galleries and public spaces, in preparation for more in-depth museology at Stage 2.	

		By working on (and if applicable, assessed through)	Site visits with presentations and group discussion, lectures and seminars. Assessed by an essay and seminar performance throughout the term.	Site visits with presentations and group discussion, lectures and seminars. Assessed by an essay and seminar performance throughout the term.	Site visits with presentations and group discussion, lectures and seminars. Assessed by an essay and seminar performance throughout the term.	Site visits with presentations and group discussion, lectures and seminars. Assessed by an essay and seminar performance throughout the term.	A summative essay conceived in the context of the module.	Leading or participating in a workshop presentation in the field <i>and</i> in the classroom. building on themes and ideas introduced by the module. Assessed by the mark awarded for seminar participation.	Site visits with presentations and group discussion, lectures and seminars. Assessed by an essay and seminar performance throughout the term.	
Stage 1	Language Module (optional)	Progress towards PLO	Students will become better equipped to access and respond to ideas and information in another language.	Students will become better equipped to access and respond to ideas and information in another language.	Students will become better equipped to navigate the vocabulary and conventions of art history in another language.	Students will become better equipped to recognise and interrogate ideas that originate in another language.		Students will prepare and deliver an individual presentation, or work collaboratively, with one or more fellow student, in designing and delivering a presentation.		
		By working on (and if applicable, assessed through)	Group work and presentations. Assessed by a two-hour closed exam, a 30-minute listening exam and a 30-minute oral exam.	Group work and presentations. Assessed by a two-hour closed exam, a 30-minute listening exam and a 30-minute oral exam.	Group work and presentations. Assessed by a two-hour closed exam, a 30-minute listening exam and a 30-minute oral exam.	Group work and presentations. Assessed by a two-hour closed exam, a 30-minute listening exam and a 30-minute oral exam.	Group work and presentations. Assessed by a two-hour closed exam, a 30-minute listening exam and a 30-minute oral exam.		Contributing to presentations in another language. Assessed by a 30-minute oral exam.	

Stage 2	Intermediate Seminar 1 (Autumn Term - with exam)	Progress towards PLO	Building on the broad knowledge developed at Stage 1, students focus their attention on a period, place or theme at intermediate level, informed by the tutor's research interests and expertise.	The greater focus of intermediate seminar modules allows students to delve deeper into periods, places or themes of interest, to hone the observational and analytical skills developed at Stage 1.	Intermediate seminar modules are designed to enable students to contribute to group discussions more often and more extensively, and to develop presentation skills, both individually and in small groups.	Students continue to explore through reading, lectures, seminars and tutorials, how interpretations of the same artworks can change across time. The salient methodological shifts pertaining to the module theme are likely to come to the fore.	In some intermediate seminar modules students identify their own formative essay topic and approach, in the context of the broader themes and questions raised by the module. In all modules at the stage, formative and assessed essays are expected to demonstrate reading beyond the set texts for the module.	Students will prepare and deliver an individual presentation, or work collaboratively, with one or more fellow student, in designing and delivering a presentation. Building on the experience gained at Stage 1, presentations at Stage 2 generally go further in shaping the focus and direction of seminar discussions.	Some intermediate seminar modules consider how the display or physical context of artworks can affect their interpretation. For certain modules, this is an overarching theme. From 2018/19, all Stage 2 modules will indicate a level of curatorial content on a scale of 1 to 3.
		By working on (and if applicable, assessed through)	A combination of weekly lecture and seminar centred on salient images and related reading. Presentations and group discussion. One formative essay. Assessed by a two-hour closed exam and seminar performance throughout the term.	A combination of weekly lecture and seminar centred on salient images and related reading. Presentations and group discussion. One formative essay. Assessed by a two-hour closed exam and seminar performance throughout the term.	Assessed seminar contributions should demonstrate a higher level of knowledge and a greater capacity to relate disparate materials and ideas than at Stage 1, and formative essays, assessed essays and closed exam essays are longer, encouraging greater depth.	A combination of weekly lecture and seminar centred on salient images and related reading. Presentations and group discussion. One formative essay. Assessed by a two-hour closed exam and seminar performance throughout the term.	A combination of weekly lecture and seminar centred on salient images and related reading. Assessed seminar contributions should demonstrate a higher level of knowledge and a greater capacity to relate disparate materials and ideas than at Stage 1.	

Stage 2	Dissertation Training Module	Progress towards PLO	Drawing on the growing breadth of their art-historical interests and experience, students explore three potential dissertation topics, honing them to a single viable project through a series of individual research tasks.	Students develop a viable research proposal that includes critical visual analysis suitable to the topic, and which identifies a range of relevant sources.	Students compile a detailed dissertation portfolio during the course of the year, the various components of which should demonstrate the critical and reflective thinking behind the chosen topic.	Students evaluate how their own ideas and preconceptions relate to, and are challenged by, existing scholarship in their chosen field, and they are encouraged to consider how their work might constitute an original contribution to that field.	Stepping up from Stage 1, students identify and evaluate potential research topics, select the one they consider most promising, and develop a detailed proposal that outlines an independent programme of research, relevant approaches, and an appropriate time frame. Emphasis is given to the discerning, scholarly evaluation of mass online information and effective use of specialist electronic resources,	While developing their own research interests and strategies, students also give feedback on other students' work through the VLE and in small groups.	Depending on the interests of individual students, this may emerge as a salient theme of the dissertation proposal.	
		By working on (and if applicable, assessed through)	Lectures and small-group workshops throughout Stage 2. Assessed by a dissertation portfolio of 4-5,000 words, including a working title, bibliography, critical review, chapter plan, etc.	Lectures and small-group workshops throughout Stage 2. Assessed by a dissertation portfolio of 4-5,000 words, including a working title, bibliography, critical review, chapter plan, etc.	Lectures and small-group workshops throughout Stage 2. Stage 2	Museology and Curatorship	Progress towards PLO	Building on the concepts introduced at Stage 1 by <i>The Art of Describing and Objects in Focus</i> , students examine the history and current practice of museum collections and displays in greater depth.	Students study the impact of visual displays in museum collections in different times and places.	Reflecting upon the impact of displays in museum collections and temporary exhibitions, students develop their own exhibition concept for an oral presentation supported by visual and written materials.	Students will assess how collections and displays have changed over time, and how curators today explore diverse exhibition approaches. These ideas will then inform the group exhibition project.	Students will conceive, develop and pitch an original exhibition concept, working in small groups, with each student taking responsibility for a specific role.	Teamwork comes to the fore in <i>Museology and Curatorship</i> , as students focus their attention on an exhibition concept project, working in small groups with each student taking responsibility for a specific role. Final presentations may incorporate digital formats, poster-style displays, press-release and promotional formats, as well as oral presentation.	Building on the skills developed at Stage 1 (especially <i>The Art of Describing and Objects in Focus</i>), students examine the history and current practice of museum collections and displays.	
		By working on (and if applicable, assessed through)	Seminars, lectures and field trips to experience exhibitions and displays at first hand. Assessed by a group presentation and individual reflective essay.	Seminars, lectures and field trips to experience exhibitions and displays at first hand. Assessed by a group presentation and individual reflective essay.	Devising an original exhibition project in a small group, taking responsibility for one aspect of the team task. Assessed by a multi-media group presentation and individual reflective essay.	Seminars, lectures that require thorough preparation, and field trips to experience exhibitions and displays at first hand. Assessed by a group presentation and individual reflective essay.	

Stage 3	Special Subject	Progress towards PLO	Special subject modules at Stage 3 draw on the tutor's research interests and expertise. Teaching is seminar based, allowing students to investigate a chosen period, place or theme in considerably greater depth.	Building on the skills developed at Stages 1 and 2, all modules at Stage 3 demand a higher level of visual analysis and criticality.	Each module is conducted around two three-hour seminars per week. Assessed seminar contributions are expected to be more extensive and in-depth than at earlier stages, in keeping with the greater degree of specialization.	Reading lists are more wide-ranging, often more demanding, and not always directly concerned with the period, place or theme under view. Students take on significantly more responsibility for identifying and pursuing the most relevant readings and other sources, making connections as they go.	In some special subject modules students identify their own formative essay topics and approaches, in the context of the broader themes and questions raised by the module. Procedural essays are also longer and more frequent: there are two per term, supported by individual tutorials, and these should demonstrate the student's growing independent knowledge and understanding of the field.	Most special subject modules balance individual seminar presentations with those in small groups of two or three. The different dynamic fostered by longer, more frequent seminars encourages a higher level of presentation and discussion among the group.	Some special subject modules consider how the display or physical context of artworks can affect their interpretation. From 2019/20, all Stage 3 modules will indicate a level of curatorial content on a scale of 1 to 3.

Stage 3	Dissertation	Progress towards PLO	Drawing on their experience and growing expertise, and developing directly from the preparation of the <i>Dissertation Training Module</i> at Stage 2, students research and write a dissertation on their chosen topic.	Students independently identify, develop and apply the most salient modes of critical visual analysis for their topic.	Students bring their written communication skills and complexity of thought to fruition.	Students formulate and present an original contribution to their topic area, engaging with the latest scholarship and demonstrating how their ideas have developed over the course of independent research.	With the regular advice of a supervisor, students carry out an entirely independent programme of research and writing, working to a self-directed time-frame.	With the regular advice of a supervisor, students carry out an entirely independent programme of research and writing, working to a self-directed time-frame.	Depending on the interests of individual students, this may emerge as a salient theme of the dissertation.
