

# Accessibility Standards

Shortlist.Me is WCAG AA 2.1 accessible as per the EU directive. This involves but is not limited to the following:

- ensuring colour contrast is above 3:1 on 18pt font sizes and 4.5:1 on anything smaller than that
- making sure buttons and links have descriptive text for people using screenreaders
- making sure non-presentational images (i.e. images that need describing) have alternate text for people using screenreaders - and marking presentation images as such
- making the site entirely keyboard navigable for users that are unable to use a mouse
- allowing users to change font size to make content easier to read without breaking layout
