China PIFI Initiative
China PIFI initiative

The China Academy of Science has launched the President's International Fellowship Initiative (PIFI) in the last few months. It has 4 levels:

• Distinguished Fellows - lecture tours of 1-2 weeks
• Visiting Fellows - collaborative research projects 1-12 months
• Post doctoral Fellows - conduct research for 1-2 years
• International PhD students - 1 year as part of your PhD

Funding is generous. CAS institutions host visitors, and they are mainly in natural and physical sciences (but not all). More details from Hilary Layton.
Japan, JSPS fellowships

These fellowships are not dissimilar to PIFI opportunities, although there may be more opportunities for Humanities and Social Sciences visits.

• There are 5 post-doctoral fellowship strands, ranging from two-month summer programmes, to two-year collaborative research projects.
• Fellowships for Mid-career up to professorial level academics for either long-term research collaborations, or short visits for research workshops or lectures
• Fellowships for eminent and outstanding academics for lecture tours and discussions

Again, funding is generous, but criteria are fixed. More information from HL or at our Japan Day in September.
Worldwide Universities Network (WUN)
Worldwide Universities Network

- A global higher education and research network
- 21 member universities, spanning 11 countries
- Fosters international research and teaching collaborations to address four global challenges:

Purpose:

The Newton Fund aims to promote the economic development and social welfare of either the partner countries or, through working with the partner country, to address the well being of communities.

How?:
The Fund was launched in 2014 and originally consisted of £75 million each year for 5 years. In the 2015 UK Spending Review it was agreed to extend and expand the Fund. The Newton Fund was extended from 2019 to 2021 and expanded by doubling the £75 million investment to £150 million by 2021, leading to a £735 million UK investment to 2021, with partner countries providing matched resources within the Fund.
