

# **Stem Cell Science, Emerging Economies and Globalisation: Legal, policy and regulatory perspectives in China and India**

This seminar explores the legal, policy and regulatory strategies being employed by China and India to advance their position as global players in stem cell science. How successful are they likely to be and what are the opportunities and threats for UK stem cell science?

**6th March 2007  
New Hall College,  
Cambridge**

This meeting is aimed at researchers working in stem cell science, research funding agencies, business professionals and those with an interest in the emerging economies of China and India.

Speakers include leading academics from the University of East Anglia and law firm Mills and Reeve.

**Closing date: 26th February 2007**

On-line registration available:
